HIGHEST-SEVERITY FINDINGS

A rival leader's campaign against Politician A could point to strong political opposition to the party.

Implied by: Media reports and headlines describing a rival campaign aimed at Politician A and at a recent recruit to their party; commentary claiming the opposing camp has already beaten Politician A once.

A warning from a rival leader's family could point to concern about the party's effect on the political map.

Implied by: A relative of a rival leader publicly cautioning Politician A, and a sharply worded warning to Politician A's party that invokes past political failures.

Public debate around Politician A's removal from a former senior post could revive negative past events and affect their image.

Implied by: Broad public discussion of the removal, described as exposing fault lines within a large constituency. Politician A is portrayed as a decorated senior figure who has since become a symbol...

03 Narrative Map					
TITLE	SENTIMENT	STRENGTH	TREND	KEYWORDS	
Public support for Politician A Politician A enjoys wide public support, particularly among right-leaning voters, who value their track record and commitment to public security.	Positive	78.2	▲ Rising	public, public support, track record, security	
Appraisal of past service The public values Politician A's past service, which strengthens their standing as a potential leader.	Positive	76.3	▲ Rising	public, service, leadership	
Launch of Party X Politician A launched Party X, aiming to be a new force on the right in national politics. The party includes prominent public figures and aims to form a broad right-wing government.	Positive	75.4	▲ Rising	electoral, party launch, Party X, Politician A	
Commitment to national security Politician A stresses a commitment to national security, which draws votes from a core constituency.	Positive	74.5	▲ Rising	public, commitment, national security	
Need for a broad right-wing government Politician A emphasizes the need for a broad right-wing government to unify the fragmented votes in the right-wing camp.	Positive	72.1	▲ Rising	electoral, votes, right-wing government, fragmented	
Candidate list Among Party X's candidates are security, legal and media professionals, which points to diversity and professional experience.	Positive	68.3	▲ Rising	electoral, candidates, list, diversity	
Impact on existing parties Critics focus on the new party's potential to harm existing right-wing parties.	Negative	66.4	— Stable	electoral, existing parties, impact	
Criticism of vote splitting There is concern that Politician A's personal run could split right-wing votes and endanger the national camp. Critics argue the party could weaken existing parties.	Negative	65.8	— Stable	electoral, criticism, vote splitting, national camp	
Concern over competing for votes There was concern that the new party would compete for votes with other parties and hurt the right's chances in the election.	Negative	64.9	— Stable	electoral, competition, votes, election chances
